

# CyberSmart Students

In grade 4, I will...

## Make Good Choices Online

- ✓ Remember that anyone can post anything online. It might be true or not.
- ✓ Remember that my online actions can be traced.
- ✓ Remember that I must re-write the ideas I find online. Copying from the Internet is stealing someone's ideas.

## Keep My Life in Balance

- ✓ Have fun online. But make sure to do other fun things with my friends.

## Think Before I Write

- ✓ Not share my real name, address or phone number on a website.
- ✓ Be respectful and ask for permission when sharing information online.

## Keep it Secure

- ✓ Use a safe password with letters and numbers.
- ✓ Never share my passwords with friends.

## Connect Safely

- ✓ Communicate with friends through email or online.
- ✓ Not respond if someone sends me a hurtful message online. I will ask my Teacher for help.
- ✓ Will not be a cyberbully. People do not deserve to be treated badly and cyberbullying really hurts others.
- ✓ Will apologize if I have made a mistake and posted something online that hurt someone.
- ✓ Be a friend and help by telling an adult if someone is being cyberbullied.
